

Abdul Nawfal

UI/UX Designer | Web Developer | Graphics Designer

Profile

Innovative UI Designer with 1 year of experience in designing intuitive and visually compelling user interfaces. Proficient in creating wire-frames, prototypes, and responsive designs while incorporating UX best practices. Basic knowledge of front-end technologies like HTML, CSS, and JavaScript to bridge the gap between design and development.

Experience

UI Designer at NGEN LABS, Chennai

February 2024 - January 2025

- Designed a seamless and intuitive vendor management platform in Figma for a client in Nepal, focusing on a smooth e-commerce product upload process.
- Designed a modern and user-friendly camping website UI in Figma, focusing on an immersive outdoor experience.
- Designed a sleek and professional product showcase website in Figma, highlighting our banking dashboard, key features, solutions, and benefits with a clean UI.
- Redesigning a cutting-edge industry website for a Gas & Oil Services client, leveraging my UI design expertise and knowledge of UX and web development to enhance user experience and functionality.
- Redesigning the Bintech Systems website for the industry sector.

Freelance Designer at Self Employed, Chennai

April 2023 — December 2024

- Designed a modern and user-friendly university website for a Singapore client, featuring intuitive navigation, easy access to academic programs.
- Create a Logo Design.
